

Hot Air Oven

Discover our range of high-quality hot air ovens designed to meet your laboratory and industrial heating needs. Cominus is committed to providing reliable and efficient equipment, and our hot air ovens are no exception. With a capacity of 200 Liters and a temperature range from ambient to 350 degrees Celsius, our ovens offer precise temperature control and uniform heat distribution for various applications.

Features

- The 200-liter capacity ensures sample space for accommodating large quantities of samples, making it ideal for laboratories and industrial settings with high-volume requirements.
- The oven's advanced air circulation system ensures uniform heat distribution throughout the chamber, minimizing temperature variations and ensuring consistent heating across all samples.
- Cominus Scientific hot air ovens are designed with safety in mind. They feature built-in over-temperature protection and a safety thermostat to prevent overheating and ensure the well-being of your samples and equipment.
- The user-friendly interface and intuitive controls make operating our hot air ovens a breeze. With adjustable shelves and a removable chamber for easy cleaning, maintenance is convenient and hassle-free.

Technical Specifications: -

Model	CM-HAO-200
Capacity (Litres)	200
Temp Range (°C)	Amb +5 to 350 °C
Temp Accuracy (At 37 °C)	±0.1
Temp Uniformity (°C)	±0.1
Glass View Door	Yes
Digital Door	Yes
Microcontroller Based	Yes
No. of Shelves	2
Inner Dimension	550 x 550 x 620
Overall Dimension	775 x 975 x 1775
MOC internal	SS304
MOC Body	MS
Insulation	Ceramic Wool
Castor Wheel	Yes
